GENERALIZED ANXIETY SYMPTOMS ASSESSMENT QUESTIONNAIRE – RCADS-P-GAD

Version for parents or caregivers of children and adolescents aged 3 to 17 years old

▶ **How often do each of these things happen to your child?**

1. Answer each item based on the last month or the period of time since your child's last appointment.

2. Use the scale at the top of the table.

3. Answer each item by checking the box that represents your child's situation the best.

Items	Never **0**	Sometimes **1**	Often **2**	Always **3**
1. My child worries about things.	☐ 0	☐ 1	☐ 2	☐ 3
2. My child worries that something awful will happen to someone in the family.	☐ 0	☐ 1	☐ 2	☐ 3
3. My child worries that bad things will happen to him (her).	☐ 0	☐ 1	☐ 2	☐ 3
4. My child worries that something bad will happen to him (her).	☐ 0	☐ 1	☐ 2	☐ 3
5. My child worries about what is going to happen.	☐ 0	☐ 1	☐ 2	☐ 3
6. My child thinks about death.	☐ 0	☐ 1	☐ 2	☐ 3

Revised Children's Anxiety and Depression Scale – Generalized Anxiety Disorder Subscale - RCADS-P-GAD © 2003 Bruce F. Chorpita

Questionnaire completed by:	Date :		
Signature	Year	Month	Day

Section reserved for the practitioner

Total raw score……………………………………………………………………..

Total number of items …………………………………………………………… **x** | 6 |

Number of answered items (≥ 4)* ……………………………………………… **/**

Adjusted score …………………………………………………………………… **=**

Score T ** ………………………………………………………………………… **=**

Is the T score greater than the clinical cut-off value of 65? ……………………………… ☐ Yes ☐ No

Practitioner's analysis and commentary:

---

* If 3 or more answers are missing, the score of the subscale cannot be used.

** For parents of children and adolescents aged 8 to 17 years old, use the conversion table to identify the T score of the subscale according to the patient's sex and school grade, in addition to the parent's raw score. Only the raw score can be used for children aged between 3 to 7 years old and patients aged 18 years and over.
